

Citrine-Plus (Liquid)

Citrine-Plus liquid is the #1 selling algaecide in America! This product controls a vast majority of problematic algae. Citrine-Plus is formulated with a low copper compound ingredient to help reduce the oxygen depletion for wildlife.

Application rate: .6 - 1.2 gal. per acre foot \$49.99 per Gallon

Hydrothol-191 (Granular)

Our #1 seller for submersed weed control! It is very effective against a broad spectrum of aquatic weeds, while also controlling algae at the same time. Hydrothol is the ideal product for use around docks, beaches, boat wells, and back yard ponds.

Application rate: 3-80 lbs. per acre foot. \$134.99 per 20 lbs. Bag, \$249.99 per 40 lbs. Box

Propeller (Granular)

Propeller delivers fast and selective control of tough invasive and nuisance plants such as Cabomba, Watermeal, Eurasian Watermilfoil, Duckweed, and more. Propeller is formed into quick-dissolve granules that mix effortlessly in water for easy use. Propeller dissipates quickly from the water column and does not accumulate in sediment.

Application rate: .53 - 2.1 lbs. per acre foot. \$299.99 per 5 lbs. Container

Sonar One

The best product for easy control of most aquatic plants. SonarOne's pellet formulation delivers an effective dose to targeted plants within the first day, while providing a longer-lasting residual for season long control. The easy-to-apply pellet formulation eliminates overspray onto sensitive shoreline vegetation.

Application rate: 1 - 5 lbs. per acre foot \$319.99 per 5 lbs. Container

Shoreklear Plus (Liquid)

Shoreklear Plus is a systemic herbicide which kills the plant roots for multi-year control. It is effective on emergent plants like cattails, rushes, Purple Loosestrife and water lilies. Works great for ponds, beaches, and anywhere emergent weeds grow. Shoreklear Plus has a non-ionic surfactant included which gives you **two products for the price of one! 1 gal. will treat up to 1/2 acre.**

— — — — — **while supplies last: \$64.99 per Gallon**

Aquathol-K (Liquid)

Aquathol-K controls submersed weeds in lakes and ponds. Aquathol-K will begin to work on contact with submersed weeds to break down cell structure and inhibit protein synthesis; without this ability the weed dies. **Application rates: 1.3—1.9 gal. per surface acre foot. \$144.99 per Gallon**

Reward

Reward controls over 15 aquatic weeds, making it one of the broadest spectrum aquatic herbicides available. Reward acts fast by interfering with photosynthesis, which doesn't allow the plants to survive. Reward can be used on submersed plants, as well as some emergent plants.

Application rates: 1-2 gal. per surface acre. \$147.99 per Gallon

Weed Razor™

Cut through tough weeds in minutes! Cut in deep or shallow water with razor sharp cutting edge that gives very little resistance because it slices the weeds rather than dragging them. Clears 4' path each throw! Includes 25 feet of rope and blade sharpener. **\$169.99**

Custom Floating Fountains

Nothing adds beauty to your pond like a floating fountain. They not only offer visual appeal but improve the overall health of your pond by constantly circulating your pond. Water movement will reduce surface algae mats and reduce stagnant water to limit mosquito breeding. For those wanting an extra visual experience we offer a full line color LED lighting kits. We also offer service and storage options for worry free maintenance.

EcoSeries Floating Fountains

- High Flow, Energy Efficient, Maintenance Free Design
- Includes 3 Breathtaking Spray Patterns
- Optional Color-Changing LED Light Sets

The Airmax EcoSeries Floating Fountain showcases beautiful industry leading spray patterns that outmatch other 3/4 HP and 1 HP fountains. The EcoSeries Fountain operates in as little as 24" of water depth and includes an energy efficient 1/2 HP stainless steel motor, motor lead, oversized modular intake screen with strain relief and underwater disconnect. Each fountain also includes 3 spray patterns, control panel and a 100' poly flex power cord (more lengths available) and includes a 3 Year Warranty. Fountains can be purchased with or without color-changing LED light set. Installation services available.

Starting at \$2349.99

Michigan Lakefront Solutions is a factory certified service center for Airmax Fountains and Aeration Systems. We also service other brands of fountains and aeration systems. Let our technicians take care of issues at your site or we can take units back to our service center.

We also offer storage of your fountains in our heated facility. We will remove, clean and check for any issues of your fountain float, motor, and lights. Please call for a service or storage quote.

Airmax has re-engineered their line of Aeration Systems to bring you the World's Best Aerator:

- The Most Effective & Efficient
- The Quietest Pond Aeration System
- Maximum Water Circulation
- The Easiest to Install

Airmax Warranty:

3 Year - Compressor and Electrical Components; 5 Year - Diffuser and Airline; 10 Year - Cabinet

Airmax PondSeries Aeration Systems are powerful enough to aerate ponds up to 6 acres and can be adapted to fit uniquely shaped ponds for maximum aeration up to 50 feet deep. Diverse PondSeries Aeration Systems make aeration a breeze. The single diffuser PS10 system is excellent for small or regularly shaped ponds while the PS60, available with up to 6 diffusers, tackles water bodies up to 6 acres or ponds with an irregular shape that require precision diffuser placement for even circulation. Airmax PondSeries Aeration Systems are manufactured in the USA with high performance, Integrated SmartStart Technology (IST) and professional quality components.

Today, most aquatic ecosystems are bombarded with excess nutrients from multiple sources, including urban and rural runoff, fertilizers, and waterfowl. Unfortunately, the naturally occurring bacteria cannot keep up with this influx of nutrients. This leads to a shift in the natural balance in ponds and lakes and encourages the build-up of bottom muck, odor, and poor water quality.

MuckAway™

Eliminate pond muck and sludge that accumulates at the bottom of your pond. The specially formulated strains of beneficial aerobic bacteria in MuckAway™ are designed to quickly digest organic debris like fish waste, leaves, twigs, plant decay and organic runoff that accumulates and form pond muck without harming your pond or its inhabitants.

Use 1 scoop per 1,000 square feet of treatment area every 2-4 weeks.

Apply when water temperatures are above 50°F. 4 lbs. (8 Scoops) \$94.99, 8 lbs. (16 Scoops) \$154.99, 24 lbs. (48 Scoops) \$354.99

PondClear™

The beneficial aerobic bacteria that quickly works to consume organic debris that cause cloudy water, muck accumulation, foul pond odors and imbalanced pond water. Convenient water soluble packets (WSP) make treating your pond a breeze. There's no need to cut, tear, scoop or pour PondClear™, just throw the packets in your pond and let your water do the rest.

Distribute 2 packets per 1/4 acre every 2-4 weeks when water temperatures are above 50°F. 3 lbs. (12 Packs) \$94.99, 6 lbs. (24 Packs) \$154.99, 24 lbs. (96 Packs) \$474.99

EasyPro™ Blue Lake Dye Packets (Water Soluble Packet)

Similar to liquid dye, but in a convenient water soluble packet! Just toss one pond dye packet into your pond to treat. Apply early in the season for best results. 2 pond dye packets will treat a 1 acre pond 4'-6" deep. 2 packets are equal to one quart of liquid pond dye. Easy Pro is the ideal blue pond dye for decorative ponds as it contrasts perfectly with lush green landscaping.

Application rate: 1 packet per 1/3 acre. \$38.99 for 4 packets

When used correctly with label directions MuckAway and PondClear are both safe for your fish, plants, pets, and pond wildlife. Using all natural beneficial bacteria these products are safe and give you the results you want.
